Welcome to the world of BBQ grilling and smoking with the technologically superior Smoke-N-Hot Pro Cooking Center.

Unpacking and Assembling Your *Smoke-N-Hot* Cooking center

Read all Safety Information Prior to Operating Grill!

Grill requires (2) two people for safe assembly

Please note that during shipping some movement may have taken place, so a complete visual inspection is required. Be sure to inspect entire grill after removing the protective shipping carton. Report any damage to your local dealer immediately. Shipping damage is not covered under warranty. Some surfaces may be sharp so wear gloves when assembling. Do not plug in the grill until it's fully assembled, the plastic protective film is removed from all stainless steel surfaces, and you're ready to cook. See: "start-up procedure" for more details.

Your carton will contain the following:

- 1- grill head complete with side shelves, mounted to a section of the cart
- 1- Left side Shelf
- 1- Right side Shelf
- 3- Front Fascia Pieces
- 1- Bottom shelf
- 1- Pellet Hopper
- 1- Combustion Module
- 1- pair of wheels on leg extensions
- 1- pair of levelers on leg extensions
- 1- Flame Shield
- 1- Power Cord
- 1- Handle
- 1- hardware bag with owner's manual

Tools Required

- #2 Phillips head screwdriver
- Open end adjustable wrench

Optional Tools

- 7mm Open End Box Wrench
- 10mm Socket and Driver

Unpack and Identify Primary Components and Hardware (see supporting diagrams)

- To be inserted
- To be inserted
- To be inserted
- To be inserted

CAUTION: Remove ALL protective plastic film from stainless steel surfaces before starting the grill. It will melt and adhere to the SS!

1. **Carefully lay shipping carton with grill over on its side (a) note: *2 person task*. Cut open bottom at top and sides and lay bottom on floor to protect grill (b). Remove bottom liner (c).**

a. **b.** **c.**

2. **Remove all separately packed components from carton and inspect for damage and to make sure they are all present. (see parts list above)**

3. **Pull grill partially out of carton**

4. **Insert legs/wheel/levelers into legs as shown. *Note: Make sure the wheeled legs have wheels to the outside and that they mount into the shorter legs on grill.***
    a. **Fasten legs using 4 # (?) Phillips screws**

5. **Position bottom shelf with side flanges pointed down and attach to legs using 4 # (?) Phillips screws**

6. **Stand grill up (2 person task) and remove carton**

7. **Level the grill by adjusting the leg levelers until the grill is level using a level placed on the top of the grill body.**

8. **Assemble Front Fascia by inserting the top screw first on both sides to hold the pieces. Next insert the bottom screws, and then tighten the nuts on the inside.**

9. **Attach handle to lid using 2 # (?) Phillips screws inserted through 2 round insulating gaskets (part # ?) and screw firmly to lid.**

10. **Attach L/R side shelves by positioning shelves over the top of the legs so screw holes align. Fasten with #(?) Phillips screws using (?) per side, tightened securely.**

11. Position L/R shelf fascia and fasten in place using # (?) Phillips screws and tighten securely in place.
